Who We Are

We value our patients' trust in us to care for their health responsibly. Our mission is to help and support patients in achieving a healthy life, and we see this as a genuine opportunity and a realistic way of sharing ourselves with the community.

We guide you through the practical aspects of healthcare and provide the knowledge and support necessary for healthy living, both mentally and physically.

Our motivation is to provide care in this patient-centered Ark known as ARK MEDICAL OF LAS VEGAS.

Profile of Health Provider **Cecilio Gonzales**

FNP-C, PMHNP-BC, USMLE / ECFMG Certified.

Cecilio Gonzales completed his Family Nurse Practitioner program (FNP-C) at Charles Drew University in Los Angeles, California. Before becoming a Nurse Practitioner, he obtained a Medical degree from his home country at Far Eastern University, Institute of Medicine, and received USMLE/ECFMG certification. He started his career as a board-certified family nurse practitioner in primary care in Brooklyn, New York. Eventually, he advanced to acute care hospital practice in California as an Internal Medicine Hospitalist. Furthermore, he also provides mental health care services as a Psychiatric-Mental Health Nurse Practitioner (PMHNP-BC). His extensive education and experience involve attending to patients across the life span (0-100+ years old) in both outpatient and background inpatient settings, which enables him to have a better understanding of taking care of patients in different care settings

and specialties:

Home Health NP Medical Assessment

Urgent Care

Psychiatric and Mental Health

Former Background in Acute Care Hospital Practice

Internal Medicine NP Hospitalist

Remote Health / Telehealth

Licensed in Four States

Primary Care

Clinic, Assisted Living, and Nursing Home

Pediatric Outpatient Care

John Carter

At Ark Medical of Las Vegas, I've found a place where my voice is truly heard. The compassion and empathy shown by the staff make me feel supported and understood. It's like having a dedicated ally in my healthcare journey.

Jennifer Hernandez

When I came to Ark Medical of Las Vegas, I was uncertain if I'd ever find relief from my PTSD. However, the treatment I received here has been nothing short of transformative. For the first time in a long while, I'm filled with hope for the future.

Mark Brown

Everyone in my family got sick, but my primary concern was for my elderly parents. I decided to take them to NP Gonzales, whom I just met for some time. He provided excellent care for them. Despite encountering a challenge in obtaining my mother's medications from the pharmacy, NP Gonzales went above and beyond by personally contacting the pharmacy to ensure my mom received her medications promptly. I have complete confidence in NP Gonzales to care for my family. In today's world, we really need more health providers like him. I will definitely recommend him as a compassionate provider. You're a heaven-sent NP Gonzales!!!

Laurie Uy

I booked an appointment at Ark Medical Of Las Vegas without difficulty, finding a suitable date for me. I appreciated that they reminded me in advance of my appointment any the possibility of fasting for bloodwork. They also advised me to review my medication list or bring my medications along to assist with addressing my health concerns – details I often overlook but are crucial. During my visit, the staff was polite and professional. Dr. Cecilio Gonzalez, the provider I saw, conducted a thorough physical examination, including listening to lungs, which is rare nowadays as many doctors rush through. I felt comfortable with Dr. Gonzalez and confident entrusting him with my health. I would give the ★★★★★★
★★★★★
